Dear Harold,

Sorry to hear of your medical problems. Warm weather should be helpful.

Recovering from a mental breakdown is a slow and frustrating process. I suppose that I'm fortunate that it was contained.

No doubt you have heard of Dick Bernabei's death. He died from brain damage after a fall on the ice. Previous to the accident he had had a total breakdown and according to Jim Brennan at Queen's was a shell of his former self.

What a tragedy.

Bobby's book is a crude and completely unoriginal work - a hodge podge of The H.S.C.A. Report. That report simply stole material from you and Cuma "Kapinguties" from Scott, Goetz, Garrison et al. The fact that Oswald's mother died a Marxist associate proves for Von's capabilities.

Fonzi wrote a fine article in defense as it should

the total non-Official investigation by F.B.I. H.S.C.A. The Warren angle leaves only the question of Lee Harvey Oswald being a patsy.

I feel that autopsy data may have been altered and that the destruction of records leaves serious questions. Substitution of fake X-rays of another body would be less risky than photographic surgery.

Hutton's book "Untold" presents civil servants like Great Gatsby like the amazing Randi. Since we have a plot requiring split planning, Lee's father was Abe Rosenthal, the Oswald have been easier to live from one duration. Hutton says in effect only this can explain the contradictions unless the Bethesda personnel and others lied. I assume they did!

Like The Umbrella Man, "The impostor" in Oswald's place, I can only suspect another level of cover-up. Frank Snepp has written a novel on the subject. He has stated journalists that Reds may notice be alive. Another "Untold" no doubt.

Keep in touch. Your contribution to American history has been enormous and the comparison with Solzhenitsyn is not mere hyperbole.

always,

Dear Harold,

Last tuesday the C.B.C. Program, "The Fifth Estate", had a documentary with David Irving and some of his witnesses. It appeared to be very impressive. You've dealt with one of the known revisionists.

Have you written a critique of The Bott Evidence? If so, I'd love to study it.

The W.C. and H.S.C.A. left so many doors open that anyone can rush in with a better "solution".

Still, Irving has gained credibility because no one has refuted him. Bleasby said the Fifth Estate that there things should be looked into! Can you imagine the gall! What was the

supposed to do?

Newsweek reported that Lane agreed to do legal work for The Nazi Party in exchange for their Hundley data. The Nazi Party was base on that deal.

Let me know how Lipton's things can be knocked down.

Sincerely,
